Amendment After Final Office Action

REMARKS

Entry of the foregoing amendments is proper as the amendments: (a) place the claims in condition for allowance; (b) do not raise new matter; (c) do not present new issues requiring new consideration or search as the amendments merely amplify issues previously discussed throughout prosecution; and (d) do not present additional claims without canceling finally rejected claims. As such, entry of the foregoing amendments is requested.

Upon entry of the foregoing amendments claims 1, 2, 6, 8, 9, 13, 15, 16, 20 and 23 have been amended. No claims have been cancelled. Therefore, claims 1-23 are pending. Support for the instant amendments is provided throughout the as-filed specification. Thus, no new matter has been added. In view of the foregoing amendments and the following remarks, reconsideration and allowance of all pending claims is requested.

A. INTERVIEW SUMMARY

Applicant thanks Primary Examiner Cesar B. Paula for the courtesies extended to Applicant's representative (the undersigned) during the telephone interview of Wednesday, July 27, 2005. During the interview, the Examiner's rejections of independent claims 1, 8, 15, and 23 were discussed. Although no agreement regarding specific claim language was reached, distinctions between U.S. Pub No. 2003/0097361 A1 by Huang et al. ("Huang") and Applicant's invention were discussed.

B. CLAIM REJECTIONS UNDER 35 U.S.C. §103

Claims 1-23 stand rejected under 35 U.S.C. 103(a) as allegedly being unpatentable over Huang in view of Barnes, Kate, "10 Minute Guide to Windows 3.1" ("Barnes"). Applicant disagrees with the rejections set forth by the Examiner. However, solely in an effort to expedite prosecution, one or more of the claims have been amended to clarify distinctions between Huang and Applicant's claimed invention.

In particular, independent claims 1, 8, 15, and 23 have been amended to clarify that a list is created that includes hyperlink to a document associated with a selected entry.

Neither Huang nor Barnes, either alone or in combination, disclose, teach, or suggest at least this feature of independent claims 1, 8, 15, and 23. Accordingly, withdrawal of these

rejections is respectfully requested. Dependent claims 2-7, 9-14, and 16-22 are allowable because they depend from allowable independent claims, as well as for the further limitations they contain.
